

FIRED EARTH PAINT FINISHES

All paint colours are available in all the following finishes:

MATT EMULSION (Water Based)

A soft, wipeable emulsion paint which dries to a chalky, matt finish. Suitable for interior plaster walls, lining paper and ceilings.

EGGSHELL (Water Based)

A tough and washable paint with a low sheen, which acts as its own undercoat. For use on interior woodwork and plaster walls, particularly in areas which need to be readily cleaned. Can also be used externally on suitably primed woodwork.

GLOSS (Oil Based)

Traditional oil-based paint suitable for use on interior and exterior wood and metalwork.

EXTERIOR MASONRY PAINT (Water Based)

A hard-wearing matt finish paint with excellent resistance to weathering and algal growth, for use on all exterior masonry surfaces.

FLOOR PAINT (Oil Based)

A tough and hard-wearing, semi gloss paint, suitable for use on interior wood, concrete and stone floors.
